IMPORTANT

Please read the terms below which describe the basis upon which these search results have been supplied and any applicable limitations relating to the reliance that should be placed on them. If you have any questions or are unsure in any way, please contact us.

RELIANCE ON SEARCH RESULTS

Date of reliance - Search results are only valid on the date that the search is carried out. If there is any delay between the date upon which You wish to use a slogan, catchphrase or other strapline and the search date, always consider carrying out an updated search prior to the date upon which You intend to use your slogan, catchphrase or other strapline.

Delay – There is a delay before details of newly filed trade mark applications are placed on the databases of the relevant trade mark registries. The search will not reveal such recently filed applications.

Completeness of search - Whilst every care and effort has been made to ensure that our database of slogans is accurate and up-to-date, we cannot, and do not, guarantee that our database contains details of every slogan ever used. Therefore we cannot, and do not, guarantee that the results of Your selected search is accurate or conclusive. To the fullest extent permitted by law, we disclaim and exclude all liability arising out of search results supplied by AdSlogans, including, without limitation, any search results which do not reveal any slogans or other phrases previously used by third parties and/or which are inaccurate in any way.

Additional searches - Always carry out all other searches available to You in conjunction with AdSlogans' search facilities, such as, by way of example only, comprehensive registered trade mark searches, unregistered trade mark searches, design right searches, domain name searches and market research. AdSlogans' search facilities are only one of many means by which You can limit the likelihood of Your slogan infringing a third party's rights. The search results which we provide will have included an online registered trade mark search of the registries in the territories set out below (in the section headed, '**Territories covered by search**') but such online registered trade mark searches are not as reliable as comprehensive trade mark searches as they are intended to locate only identical marks instead of both identical and similar marks. A registered trade mark can be infringed through the use of an identical or similar trade mark.

Famous Marks - Proprietors of marks which are "well-known" in the UK (regardless of whether that mark it is used or registered in the UK) may prevent the use of an identical or similar mark where such use is likely to lead to confusion.

Foreign Priority Claims – The Paris Convention enables a third party that has applied to register a trade mark in a foreign convention country to claim that foreign filing date as the filing date for other convention countries, provided that such an application is filed within six months of the foreign application. Priority claims are a concern as it may be possible for a third party to file an application up to six months after the date of a search and to claim a priority date that pre-dates that search.

Territories covered by search - Our trade mark search results only cover the following territories: Australia, Canada, Community Trade Mark Office, Germany, Hong Kong, Ireland, New Zealand, Spain, United Kingdom, United States of America and Singapore.

How AdSlogans can help you			
Service	LineCheck	WordCheck	BizCheck
Description	A customised report showing prior or current use of a proposed new endline. Provides reasonable reassurance that proposed line is not likely to be in current or recent use by a competitor.	A customised report of brand slogans showing how a single word is used within a specific product category Useful when developing a new line for a brand, particularly when brainstorming.	A customised report of brand slogans in any given brand category. Provides a fast overview of what the competition is saying.

Please contact us if you would like further details on our services
